service of 5000+

**Kinghanlong·Leading brand in
one-stop packaging solutions for segmented fields**

PATENT CERTIFICATE

COOPERATIVE CLIENTS

We are a **national high-tech enterprise** with 15 years of experience, 4 manufacturing facilities, and over 100 patented technologies. With deep expertise and core technological capabilities, we have built a solid reputation in the packaging machinery industry.

15 Years of Technical Accumulation

Our journey has been shaped by countless failures and continuous "+1" optimisations. Through persistence and iteration, we have achieved the mature and stable technology we offer today.

Mastering Core Technologies

We specialise in AI-based control systems, high-speed control, and various sorting and feeding technologies — including orderly feeding, disorderly feeding, scattered feeding, belt feeding, and rotary disc feeding.

Each technological breakthrough is the result of our R&D team's tireless efforts, trials, and innovation. Every solution represents both the sweat and intelligence of our engineers and reflects the leading edge of the industry.

Reliable Machines & High-speed Integrated Lines

Our standalone machines are simple yet stable, while our integrated packaging lines are high-speed and highly reliable.

We Support Deep Customisation

With industry-leading experience in automated packaging lines and full-process bag-in-box-in-carton solutions, we are one of the few manufacturers that:

Truly master core technologies

Offer deep customisation

Deliver precise and cost-saving packaging line solutions

We help our clients significantly reduce labour costs and improve production efficiency.

Specifications List

PARAMETERS	
Brand	KITECH
Bag shape	Back seal with round corner
Horizontal seal pattern	Straight grain
Vertical seal pattern	Plain grain
Cut form	Flat cut
Back seal width	5mm
Film roll thickness	7-12C
Packing speed	50-60packs/min
Bag length	Max. 170mm
Power supply specification	220V, 50Hz, 3kw
Film pulling method	Servo motor film pulling
Measuring range	20g
Dimension (L * W * H)	870*1350*2500mm

Configurations List

Serial number	Name	Brand	Origin
1	PLC (Programmable Logic Controller)	H3U	Inovance (汇川)
2	HMI (Human-Machine Interface)	IT7070	Inovance (汇川)
3	Inverter / VFD (Variable Frequency Drive)	MD200S0.4B	Inovance (汇川)
4	Driver	SV660PS5R5I	Inovance (汇川)
5	Servo Motor	MS1H4-75B30CB-A331R	Inovance (汇川)
6	Pneumatic Components	-	Airtac (亚德客)
7	Relay Amplifier Board	16-channel	Omron (欧姆龙)
8	Circuit Breaker	-	Schneider (施耐德)
9	Solid State Relay	G3NB-210B-1	Omron (欧姆龙)
10	Power Supply	EDR-100-24	Mean Well (明纬)
11	Bearing	-	NSK
12	Proximity Switch	SN04-N	LUGONG (泸工)
13	Color Mark Sensor / Eye Mark Sensor	Z3N-T22	BetterLight (百得利)

Quotation

ITEMSE		QTY	TOTAL PRICE(USD)	DELIVERY TIME	REMARK
Back Sealing Double-lane Packing Machine		1 Set	\$18000.00	35 working days	The Q1 vacuum feeder can send the powder around 50kg-2000kg per hour.
-Powder		1 set			
Coding Printer		1 set			
Q1 Vacuum Feeder(Optional)		1 set	\$980		
Shipping cost and Insurrance Cost from China to Poland			\$700		
Total			\$19680		
Payment term	50% T/T in advance, 50% balance before delivery				
Delivery term	CIF Poland				
Warranty	12 months guarantee, the main electric parts maintains one years.				
Valid	Valid for 30 days from the date of offer.				
After-sales service	Lifetime online technical support. If overseas after-sales support is needed, the buyer needs to pay the engineer's visa fee, room and board, transportation expenses, and a labor fee of \$150 a day, which is calculated from the day the engineer gets on the plane to the time the engineer gets off the plane. (No Labor Fee During Guarantee Period)				

About Shipping

Stretch Film Packaging:
Protected from moisture and vibration

Wooden Crate:
Protected from sunlight, high temperature, and shock pressure

Cardboard Box:
Easy to identify & operate

Sea, land and air Delivery:
Multiple transportation options available

Pre-sale & after-sale process

Guangdong Kitech Intelligent Equipment Technology Co., Ltd.

FILE

Zongzi (2024) No. 002

Production Order Number (Contract Number):

Model:

Customer Company Name:

Integrated pre-sales and after-sales process

1 Contract drafting+signing back+payment collection

- ① Production materials need to be confirmed, and any costs incurred due to customer changes must be borne by the customer themselves;
- ② The contract needs to confirm the customer's packaging requirements and customer acceptance standards;
- ③ The contract must be returned with the customer's seal or signature, otherwise the order will not be placed or refunded.

Person responsible: _____ (Business)

3 Scheme initiation

- ① The design proposal of the R&D department requires final approval from Mr. Liu before the procurement can place an order;
- ② The R&D department cooperates well with the requirements of each department during the process, and provides timely feedback on any issues that arise during the process.

Person responsible: _____ (Research and development) _____ (Procure)
_____ (Business)

5 Final payment collection

Person responsible: _____ (Business) _____ (Finance)

2 Place a production order

- ① Fill out the production order form for the business and provide it to the follow-up. Within 48 hours of the follow-up, confirm the machine inspection standards with the salesperson. The business provides samples and sample delivery time;
- ② The salesperson arranges for the customer to send samples, confirms with the customer the impact of different films and materials on debugging, and seals the samples in the sample cabinet in the large conference room;
- ③ Prepare the required film for machine inspection in advance (at least 800 meters), provide bags for bag type (at least 500 pieces), and customer materials weighing more than 5kg. If foreign customers are unable to provide it, the materials can be purchased through follow-up orders, and the coating can be ordered and cut at the follow-up removal factory;
- ④ Jinshan Document continuously improves the ordering process table.

Person responsible: _____ (Business) _____ (Documentary)

4 After sales department inspects the machine

External machine inspection:

- ① Clearly define the details of the machine inspection for the business, and provide video of the machine inspection for external communication;
- ② If online machine inspection is required, the order needs to be coordinated with the after-sales department and the supplier to schedule an online video machine inspection time.

Internal machine inspection:

- ① Business submits after-sales application forms, and Apei has a 24-hour document issuance and scheduling time in Jinshan;
- ② The on-site inspection business needs to arrive at the site synchronously and obtain customer feedback in a timely manner.

Person responsible: _____ (Documentary) _____ (After Sales)
_____ (Business)

6 Pre shipment inspection

- ① Submit the acceptance criteria form for the business to the production workshop for acceptance;
- ② The workshop conducts a production order order counting table.

Person responsible: _____ (Business) _____ (Workshop)

7 Arrange shipment

- ① The shipment application form is provided to the documentary, and the default delivery time is within 24 working hours to pack the wooden box;
- ② If there is an emergency situation, it is necessary to apply to the documentary department to arrange for the supplier to work overtime;
- ③ Confirm whether accessories are needed. All accessory orders must be verified with the responsible person before shipment.

Person responsible: _____ (Workshop) _____ (Documentary)
_____ (Business)

9 After sales on-site installation

After sales service is completed, the after-sales technician must communicate with the salesperson. The master can only leave after confirming whether the customer has completed the equipment training.

Person responsible: _____ (Business) _____ (After Sales)

11 After sales follow-up

After sales SOP Manual

Person responsible: _____ (Business)

13 Responsibility binding

If any process error is caused by personal issues in any link, each link shall bear its own responsibility, be criticized and fined 100 yuan per link

Person responsible: _____ (All responsible persons)

8 Place an after-sales order

- ① Write the delivery time in the workshop, and arrange the results after Apei arranges the order for sale within 24 hours;
- ② Confirm with the customer regarding after-sales service before departure, and have the customer print, sign, take photos, and return the Kingsoft document;
- ③ Establish an after-sales group and handle after-sales matters independently.

Person responsible: _____ (Workshop) _____ (Documentary)
_____ (Business)

10 After sales review

The salesperson will confirm with the customer whether the after-sales service can currently leave and explain the five-star rating survey questionnaire. The five-star rating survey questionnaire will be signed and confirmed by the after-sales technician on site for the customer to fill out.

Person responsible: _____ (After Sales)

12 Order processing for after-sales accessories

- ① Ordering after-sales accessories requires business coordination and R&D to modify the accessories;
- ② After confirming the accuracy, the R&D department will place an order for procurement.

Person responsible: _____ (Procure) _____ (Business)
_____ (Research and development)
